## Biodiesel Business: Best Practices, Opportunities and Challenges

November 7, 2007, 9 am - 4 pm

Asheville-Buncombe Technical Community College  
Haynes Center, Candler, NC

The NCCCS BioNetwork and its partners announce a conference on the rapidly developing biodiesel industry in North Carolina. Join industry experts, educators, investors, suppliers and others at this important event.

At the “Biodiesel Business: Best Practices, Opportunities and Challenges” conference you will hear from many stakeholders in the growing biodiesel industry about how they are overcoming challenges and bringing biodiesel to the marketplace.

The conference will focus on a wide range of topics including fuel production, financing, marketing, distribution approaches, workplace safety and product quality.

Sessions and pre-conference workshops will include:

- Biodiesel 101: An Introduction
- Biodiesel Business models
- Business Planning for Small Producers
- Distribution Planning and Organization
- ASTM D6751: Biodiesel Standards and Testing Methods
- The Future of Biodiesel
